### DEFINITIONS AND ABBREVIATIONS

Unless otherwise defined in these operation specifications provisions, all words, phrases, definitions, and abbreviations have identical meanings to those used in the South African Civil Aviation Regulations and Civil Aviation Act, as amended. Additionally, the definitions listed below are applicable to operations conducted in accordance with these operations specifications provisions.

AMO         Aircraft Maintenance Organisation           AMP         Aircraft Maintenance Programme           SACAA         South African Civil Aviation Authority           CAR         Civil Aviation Regulations           MOP         Manual of Procedure           In these operation specifications provisions the term "certificate holder" shall mean the holder of an aircraft maintenance organisation certificate, issued in terms of Part 145 of the South African Civil Aviation Regulations of 2011 as amended.           Rating         Means an authorization entered on or associated with an AMO approval and forming part of such approval, stating special conditions, privileges or limitations relating to such approval. Privileges are defined in CAR 145.           Maintenance         Means the performance of tasks required to ensure the continuing airworthiness of an aircraft, including any one or combination of overhaul, inspection, replacement, defect rectification, and the embodiment of a modification or repair.           Category         Classification of aircraft maintenance activities into airframe maintenance (Cat 'B'), Airframe components, equipment and accessories maintenance (Cat 'B'), Airframe components, equipment and accessories maintenance (Cat B'), angines onwing maintenance (Cat 'C'), aircraft avionic installations (Cat 'W' class 1, 2 & 3), avionic equipment overhaul (Cat. 'X', class 1, 2 & 3), propeller (class X4), and welding processes (class X5).           Deviation         An authoristion that permits an alternate means of compliance with CAR. The deviation authority must meet the procedural requirements of SA-CAR Part 11.           Limited Rati	accordance with the	se operations specifications provisions.
SACAA         South African Civil Aviation Authority           CAR         Civil Aviation Regulations           MOP         Manual of Procedure           In these operation specifications provisions the term "certificate holder" shall mean the holder of an aircraft maintenance organisation certificate, issued in terms of Part 145 of the South African Civil Aviation Regulations of 2011 as amended.           Rating         Means an authorization entered on or associated with an AMO approval and forming part of such approval, stating special conditions, privileges or limitations relating to such approval, privileges are defined in CAR 145.           Maintenance         Means the performance of tasks required to ensure the continuing airworthiness of an aircraft, including any one or combination of overhaul, inspection, replacement, defect rectification, and the embodiment of a modification or repair.           Category         Classification of aircraft maintenance activities into airframe maintenance (Cat 'A), Airframe components, equipment and accessories maintenance (Cat' A), avinic equipment overhaul (Cat 'C', alcas 1, 2 & 3), avionic equipment overhaul (Cat 'C', class 1, 2 & 3), avionic equipment overhaul (Cat 'C', class 1, 2 & 3), avionic equipment overhaul (Cat 'C', class 1, 2 & 3), avionic equipment and skills not ordinarily performed under other AMO capability.           Limitation         A restriction imposed on the corresponding rating based on the AMO capability.           Rating issued to an AMO that maintains or repairs only a particular type of radio, instrument, or accessory, or part thereof, or performs only specialized maintenance requiring equipment and skills not ordinarily performed under other AMO ratin	AMO	Aircraft Maintenance Organisation
CAR         Civil Aviation Regulations           MOP         Manual of Procedure           In these operation specifications provisions the term "certificate holder" shall mean the holder of an alicraft maintenance organisation certificate, issued in terms of Part 145 of the South African CWI viation Regulations of 2011 as amended.           Rating         Means an authorization entered on or associated with an AMO approval and forming part of such approval, stating special conditions, privileges or limitations relating to such approval, privileges are defined in CAR 145.           Maintenance         Means the performance of tasks required to ensure the continuing ainvorthiness of an aircraft, including any one or combination of overhaul, inspection, replacement, defect rectification, and the embodiment of a modification or repair.           Category         Classification of aircraft maintenance activities into airframe maintenance (Cat 'A), Airframe components, equipment and accessories maintenance (Cat 'D'), Maintenance on rotorcraft and their engines (Cat 'E'), aircraft avionic installations (Cat 'W' class 1, 2 & 3), avionic equipment overhaul (Cat. 'X, class 1, 2 & 3), avionic equipment overhaul (Cat. 'X, class 1, 2 & 3), avionic equipment overhaul (Cat. 'X, class 1, 2 & 3), avionic equipment overhaul (Cat. 'X, class 1, 2 & 3), avionic equipment overhaul (Cat. 'X, class 1, 2 & 3), avionic equipment overhaul (Cat. 'X, class 1, 2 & 3), avionic equipment overhaul (Cat. 'X, class 1, 2 & 3), avionic equipment overhaul (Cat. 'X, class 1, 2 & 3), avionic equipment overhaul (Cat. 'X, class 1, 2 & 3), avionic equipment overhaul (Cat. 'X, class 1, 2 & 3), avionic equipment overhaul (Cat. 'X, class 1, 2 & 3), avionic equipment overhaul (Cat. 'X, class 1, 2 & 3), avionice equipment averhave esclice model or constituent par	AMP	Aircraft Maintenance Programme
MOP         Manual of Procedure           In these operation specifications provisions the term "certificate holder" shall mean the bodier of an aircraft maintenance organisation certificate, issued in terms of Part 145 of the South African Civil Aviation Regulations of 2011 as amended.           Rating         Means an authorization entered on or associated with an AMO approval and forming part of such approval, stating special conditions, privileges or limitations relating to such approval. Privileges are defined in CAR 145.           Maintenance         Means the performance of tasks required to ensure the continuing airworthiness of an aircraft maintenance activities into airframe maintenance (Cat 'A), Airframe components, equipment and accessories maintenance (Cat 'B'), engines on wing maintenance (Cat 'C'), engine/components overhaul (Cat 'U') class 1, 2 & 3), avionic equipment overhaul (Cat. X', class 1, 2 & 3), avionic equipment overhaul (Cat. X', class 1, 2 & 3), propeller (class X4), and welding processes (class X5).           Deviation         An authorisation that permits an alternate means of compliance with CAR. The deviation authority must meet the procedural requirements of SA-CAR Part 11.           Limited Rating         Rating issued to an AMO that maintains or repairs only a particular type of radio, instrument, or accessory, or part thereof, or performs only specialized maintenance regariting equipment and skills not ordinarily performed under other AMO ratings. Such a rating may be limited to a specific model or constituent part, or to any number of parts made by a particular manufacturer and shall be restricted to those items listed on an approved capability listing as defined in CAR 145.01.6 (h)           A document compiled by the AMO and approved by the SACAA, which	SACAA	South African Civil Aviation Authority
Certificate Holder       In these operation specifications provisions the term "certificate holder" shall mean the holder of an aircraft maintenance organisation certificate, issued in terms of Part 145 of the South African Civil Aviation Regulations of 2011 as amended.         Rating       Means an authorization entered on or associated with an AMO approval and forming part of such approval, stating special conditions, privileges or limitations relating to such approval. Privileges are defined in CAR 145.         Maintenance       Means the performance of tasks required to ensure the continuing airworthiness of an aircraft, including any one or combination of overhaul, inspection, replacement, defect rectification, and the embodiment of a modification or repair.         Category       Classification of aircraft maintenance activities into airframe maintenance (Cat 'A), Airframe components, equipment and accessories maintenance (Cat 'B), engines onwing maintenance (Cat 'C), engine/components overhaul (Cat 'D'), Maintenance on rotorcraft and their engines (Cat 'E'), aircraft avionic installations (Cat W' class 1, 2 & 3), avionic equipment overhaul (Cat: X', class 1, 2 & 3), propeller (class X4), and welding processes (class X5).         Deviation       An authorisation that permits an alternate means of compliance with CAR. The deviation authority must meet the procedural requirements of SA-CAR Part 11.         Limited Rating       A restriction imposed on the corresponding rating based on the AMO capability.         Rating issued to an AMO that maintains or repairs only a particular type of radio, instrument, or accessory, or part thereof, or performs only specialized maintenance requiring equipment and skills not ordinarily performed under other AMO ratings. Such a rating m	CAR	Civil Aviation Regulations
